- Frontend - Javascript, jQuery, AngularJS, ReactJS
- Databases - MySQL, Postgres
- Version Control - GIT, Bitbucket

### **Skills -**

- Experience of software release, documentation and end user support.
- Understanding of Linux, SQL databases, Ruby and code revision control.
- Proven experience in developing web applications.
- Analytical, diagnostic and problem solving skills.

### **Projects**

- **NOC Alert Dashboard:** This application was built to provide alerts during server/application issues of various projects in the organization. (Stack - ReactJs and New relic API).
- **Bright By Text:** The goal of the project was to build an automated messaging service application. Bright by Three offers parents of children aged 0-5 with tools, information and resources to empower them to be the first and most influential teacher in their child's life!. (Stack - Ruby On Rails).

I was part of a small team where I was responsible for building the initial MVP of the product and also integrate the major messaging service in the application using Twillio.

- **Uvize:** This application offers a comprehensive platform that features support mentor networks, one-on-one and group mentoring. (Stack - AngularJs 1.6).

- **Fortrust:** The goal of the project was to build a customisable dashboard, for productive third party application monitoring of one of the largest data centres in Denver. The dashboard view was loaded on logged in user's department and access level. About 5 different third-party applications were configured to achieve this. (Stack - Ruby on Rails).

Working as a Junior team member I was responsible for integrating the third party api's such as MS CRM and Solar Winds to the dashboard using graph's (Highcharts)

- **Online Recruitment Application:** The goal of the project was to build a recruitment application which provides an organisation to conduct online tests for the applicants. (Stack - Ruby on Rails and AngularJS)

### **Academic Qualifications**

Attained Bachelor of Engineering (B.E) in Electrical and Electronics Engineering with 60% from VTU.
